

Technical drawing of the front view of a mechanical component. The drawing shows a rectangular block with a central horizontal slot. Dimensions are given in millimeters: a total width of 40, a central slot width of 12, and a total height of 30 (divided into 10 and 20 sections). There are four circular features: two on the left face (one at the top, one at the bottom) and two on the right face (one at the top, one at the bottom). A central circular feature is indicated by a dashed line and labeled 'H'. A dimension line indicates a distance of 20 from the bottom edge to the center of the central feature. A note $\varnothing 3 \text{ H7 } \left(\begin{smallmatrix} +0.010 \\ 0 \end{smallmatrix} \right) * 5L$ points to the left face, and another note 4-M3x0.5*6L points to the bottom edge.
